

FREQUENTLY ASKED QUESTIONS

Homesickness

Each year some of our campers will come down with a case of homesickness. This is perfectly natural for children. In the event this happens our volunteers will stay with your child until such a time that they feel better. We will not force any child to stay at our week, but we do encourage them to try and stick it out with us. If we feel like your child's well being is not being served by staying we will contact you to seek your advice. Then you make the final decision as to whether they stay or come home.

Camper Mail

Everyone wants to know they are missed and have contact with those they are away from. Please take time to write your camper a letter and drop it in the blue mailbox.

Severe Weather

In case of severe weather, all campers will be moved by the faculty to the basement of the camp manager's home, located at the top of the hill next to the dorms. We will remain in the basement until such a time as the weather has cleared and we can return to our normal activities.

Sickness

If your camper becomes ill during the week we will administer treatment for small occurrences, such as headache and upset stomach. In any case outside of this, we will contact you for advisement. Camp does have a nurse during the week.

Baptism

We believe in the essential nature of baptism to the salvation of the believer, as outlined in the books of Acts. During this week of camp some campers will decide they want to follow Jesus as their personal Lord and Savior.

Should your child wish to do so, we will contact you before any action is taken. If you wish for your child to be baptized we can do so here at camp at any time or we will send word to your home minister of your child's decision and the baptism can take place at home.
